*Paper-and-pencil assessments will contain multiple choice, multiple select, and constructed response items. Online assessments will also contain technology-enhanced items.*

Multiple Choice

1. **Which figure can *best* be described as a line?**

2. **Two groups of 27 people each visit a zoo. The cost to enter the zoo is $9 for each person.**

    What is the total cost for both groups to enter the zoo?

    A $183

    B $243

    C $366

    D $486

Multiple Select

3. **Alyssa and William collect model cars.**

    - **William has 3 times as many model cars as Alyssa.**
    - **William has 42 model cars.**

    Which _two_ equations _could_ be used to find how many model cars, m, Alyssa has?

    A $3 \times m = 42$

    B $3 + 42 = m$

    C $3 \div 42 = m$

    D $42 \times 3 = m$

    E $42 \div 3 = m$

Constructed Response

Constructed response items for math will be scored by teachers in each school/district using rubrics and/or scoring guides provided.

4. **Larry goes to the grocery store with a list of items to buy. He also makes a note of the prices of the items.**

2 loaves of bread	$10
2 packets of cheese	$12
3 dozen eggs	$9
gallon of milk	$4
bag of carrots	$3

    Part A

    How much will Larry spend if he buys all the items on his grocery list?

    Part B

    Larry has two $20 bills to pay for his groceries. How much money will Larry receive in change after paying for his groceries?
